## Work Experience

### Software Engineer

June, 2016 - Present

*B2W Software, Portsmouth NH*

Responsibilities and coming soon.

### Software Development Internship

May, 2015 - June 2016

*Harding University Branch of the Center for Advanced Public Safety*

Collaboration with a small group of students and professors where we aimed to maintain and add functionality to the Arkansas, Alabama, and Mississippi state police web applications. Focuses included working to create detailed reports for state officials using T-SQL, SSRS, and Visual Studio. Other work included eliciting information from clients, object oriented programming skills, knowledge of web design, and an understanding of .NET development using the MVC framework to add functionality to the web applications.

## Skill Summary

**Languages:** C#, Transact SQL, Java,  $\LaTeX$   
**Scripting:** PowerShell  
**Framework:** Xamarin, Xamarin.Forms  
**DBMS:** Microsoft Reporting Services  
**Version Control:** Git, TFS, SVN
